

# Privacy Policy – The Human Being Movement (HBM)

**Last updated:** March 26, 2025

We, At Human Being Movement, believe in real connections. Your privacy matters to us, and we are committed to protecting your personal data. This Privacy Policy explains how we collect, use, and safeguard your information when you use our website or platform (“**Platform**”) to engage in meaningful conversations.

By accessing or using our Platform, you acknowledge that you have read and understood this Privacy Policy.

## 1. Who We Are & What This Policy Covers

HBM is the “data controller” of the personal data processed in the Platform.

That means that we decide what personal data is collected and for what purpose and take steps to ensure that your data is protected and handled according to privacy laws.

If you have concerns about your personal data, you can contact us directly at [office@thehbm.org](mailto:office@thehbm.org)

Who this Privacy Policy applies to?

This Privacy Policy applies to individuals who interact with the Human Being Movement (HBM) Platform and services, including:

- **Website Visitors** – Anyone browsing our home page, website, reading content, or interacting with our Platform without signing up.
- **Platform Users** – Individuals who create an account and use HBM to connect with others, whether joining on their own or through a community or organization.
  - **Independent Users** – Those who sign up directly and use HBM for personal engagement.
  - **Community & Organization Participants** – Users who join as part of an employer, educational institution, or other partner organization that collaborates with HBM
- **Individuals Who Contact Us** – Anyone who reaches out via email, chat, or support channels.
- **Business Partners & Representatives** – Employees or representatives of companies, nonprofits, or institutions that work with HBM, including potential partners.
- **Event, Network Contacts and Social Media** – Individuals who engage with HBM through meetups, webinars, social media or networking events.

## 2. What Personal Data We Collect

When we say 'personal data' we mean any information that relates to or can be linked to a specific person. This includes details that identify you directly, like your name or email, as well as information about how you use the Platform.

We collect different types of personal data depending on how you interact with us or the Platform.

Data You Provide Directly

- **Login Information:** Email, phone number, country, language preferences, date of birth, and authentication details (such as tokens or unique IDs from Google or Apple, or Facebook login services). If you sign in via Google or Apple, Facebook, or through a manual registration process, we may also receive basic profile details they provide, such as your name and profile picture, depending on your settings with those services. We may also receive similar login or profile information when it is shared with us by third parties, such as Community or Organizational partners (such as employers, schools, event organizers etc.)
- **Profile Information:** Real name, and additional information used to support smart matching—such as job title, company, department, area of expertise, hobbies, and company location. Users may also choose to provide optional profile details, such as a short bio (paragraph about themselves), hobbies, profile photo, and, if relevant, their work department, role, office location, or professional field and alike.
- You may choose to share how you're feeling before and after a conversation by selecting your emotional state from a range of options. This may be displayed to the other party—depending on your preferences. The goal is to help express your mood in a simple way and support more open, meaningful interactions.
- **Chat & Engagement Data:** We allow users to rate their conversations and interactions with others to help us improve the experience and future matchings. Users may express their satisfaction with a conversation, indicate whether they would like to speak with the same person again, and share how they felt during the interaction.
- **Publishing Video Content:** If both participants agree or choose to, we may share or publish their video (or parts of it) in a public area of the Platform. This content may be viewed and commented on by other users, or used for promotional purposes with their consent.
- Additionally, users can provide feedback on their experiences, including how they felt after a call. Post-call reflections are used for internal analysis only and are never shared with other users.

#### Data Collected Automatically

- **Technical Data:** Device type, browser, IP address, and Platform usage.
- **Usage Data:** How often and how long users engage in conversations and the Platform.
- **Cookies & Tracking Technologies:** We use cookies and similar tracking tools to enhance your experience, remember your preferences, improve our services, and analyze how the Platform is used. These technologies help us understand trends, optimize performance, and provide relevant content. You can manage your cookie preferences through your browser settings or, where applicable, via our Platform's controls.
- We use Google Analytics and similar tools to understand how users interact with our Platform, improve services, and enhance user experience. These tools may collect data such as pages visited, time spent on the Platform, and device information. If you prefer to opt out of Google Analytics tracking, you can do so by using [Google's official opt-out tool](#) or by adjusting your browser settings.

#### Data from Other Users

- Chat & Engagement Data: We allow users to rate interactions with and other users to help improve the experience and future matchings. These ratings and comments are collected internally and are not publicly visible.
- User Reports & Safety Flags: If a user encounters inappropriate behavior or content, they can report it to us. We encourage users to report any concerns, as this helps us enforce our guidelines and take appropriate action when needed.

### 3. How We Use Your Data

We process your personal data for the following purposes

- To operate the Platform and enable meaningful conversations between users, including by better matching individuals based on relevant criteria.
- To verify users and ensure safety, including preventing misuse, monitoring patterns of behavior, and enforcing our [Terms of Use](#) and [Community Guidelines](#).
- To improve user experience by analyzing engagement trends, enhancing matchmaking, and developing new features.
- To provide customer support by responding to questions, resolving issues, and addressing user reports.
- To comply with legal obligations, including handling disputes, meeting regulatory requirements, and cooperating with law enforcement where necessary.
- To collect and analyze user ratings and feedback to improve future matching and overall Platform experience.
- To conduct research and Platform analytics to optimize performance and enhance features.
- To send marketing materials, updates, and recommendations when permitted, with options for users to manage preferences.

We may anonymize, aggregate, or otherwise de-identify personal data and use the resulting information for internal and external purposes, such as service improvement, analytics, research, and the creation of statistical reports. Once de-identified, such data no longer enables the identification of any individual and may include, for example, aggregated usage patterns of our services.

We do not sell your personal data in the traditional sense—meaning we do not exchange your information for money. That said, under the California Consumer Privacy Act (CCPA), some data sharing activities we use, such as the use of third-party cookies and tracking technologies for analytics or advertising, may be considered a 'sale'. To manage your preferences or opt out of such sharing, please review the [Cookies & Tracking Technologies section above](#).

### 4. Recording & Storage

Users control their own recordings: Users can mutually choose to record and save or share their video conversations.

HBM generally does not store video chats: By default, we do not save videos unless there is a specific need, such as addressing safety concerns, violations of our policies, or legal requirements

### 5. Moderation & User Protection

Suspicious behavior alerts may be triggered if a user covers their face or displays inappropriate content.

Users can report inappropriate behavior for review. We encourage you to do so.

Repeated violations and misuse may lead to restrictions or bans.

As we continue to improve the Platform, we may introduce additional tools and methods to detect and prevent misuse, including automated moderation and enhanced user safety measures.

## **6. Who We Share Data With**

We may share personal data with

- **Service Providers:** Companies that help us operate the platform, such as cloud hosting, security, and analytics.
- **Corporate Clients:** If you use HBM through an employer or partner organization, they may receive aggregated, non-personal usage data, but not private conversations or video records.
- **Legal Authorities:** If required by law, such as in response to court orders or investigations.
- **Mergers & Acquisitions (M&A) and Change of Control:** If HBM undergoes a business transition such as a merger, acquisition, restructuring, or sale of assets, your personal data may be transferred as part of that transaction. In such cases, we will notify you of any material changes regarding your privacy rights.

## **7. Age Restrictions & Parental Consent**

Who Can Use the Platform

By using the Platform, you confirm that you meet the age requirements below. If you are a parent or guardian, your child's (under 18 years of age) use of the Platform means you have read and agreed to this privacy policy.

- Users must be at least 16 years old to create an account and use the Platform.
- If you are between 16 and 18, you must have parental or guardian approval to use the Platform.
- We may take steps to verify a user's age and request additional information if needed.

## **8. Your Data Rights & Control**

You have the following rights regarding your personal data:

- **To delete your account** – You can request to delete your account, and your related personal data will be removed unless we need to retain it for legitimate reasons, such as legal compliance, defending claims, maintaining records, or investigating complaints
- **To access or request a copy of your data** – You can ask for a copy of the personal data we hold about you
- **To correct or delete inaccurate or outdated data** – If any of your personal data is incorrect or outdated, you can request to update or delete it

- To opt out of data sharing that may be considered a 'sale' under CCPA – You can manage your preferences and limit certain data-sharing activities. For more details, see the [Cookies & Tracking Technologies](#)

These rights may be subject to legal, contractual, and operational limitations. To make a request, contact us at [office@thehbm.org](mailto:office@thehbm.org)

Please note that you are not legally required to provide your personal data. Any personal data you share is voluntarily provided as part of your acceptance of this Privacy Policy and your decision to use the Platform. However, if you choose not to provide certain data, some features may be limited, and in some cases, you may be unable to use the Platform entirely. Additionally, we may not be able [to achieve the purposes outlined in this Privacy Policy](#). For example:

- If you choose not to share your emotional state, the other party will not see your status, but you can still use the Platform.
- Without login information, you will not be able to create an account or access the Platform.
- Without engagement and usage data, we cannot improve matchmaking, enhance safety measures, or develop new features.

## 9. Cross-Border Data Transfers

We operate internationally, and your data may be stored in countries outside your own, including the United States and Israel. We take steps to ensure appropriate safeguards are in place when transferring data across borders in compliance with applicable laws.

## 10. Security & Fraud Prevention

We implement industry-standard security measures to protect your data, including encryption, restricted access, and monitoring for unauthorized activity. However, no system is 100% secure, and we encourage users to take precautions when using any online services.

## 11. Changes to This Policy and Other Terms

As our platform evolves, so may our data practices. We will update this Privacy Policy as needed. We will notify users of significant changes, such as via email or in-app notices. Continued use of the Platform after updates means you accept the changes. Any use of the Platform is also subject to our [Terms of Use](#) and [Community Guidelines](#).

## 12. Contact Information.

If you have any questions or concerns about this policy, please contact us at [office@thehbm.org](mailto:office@thehbm.org)
